Subject: OECA Reports for 6/15/17

Hi all –

Attached are the draft OECA updates for the period ending 6/15/17. Please send new items and your proposed edits to existing items to Ellen and me by 10:00 am Tuesday 6/13.

The red/green/no color designations have not changed. It is possible that the new permanent DAA (Mr. Traylor) will provide input on colors next week. But, Ms. Bodine is expected to arrive in July. So, OECA senior leadership may wait to receive direction from her before making or changing color designations (or changing this process).

Since it has been a while, please review the following tips.

- Review each category to determine whether new matters may fit.

- For new matters, be sure to lead with the state's role, even if the state has no role.
- Note if a matter directly relates to oil and gas exploration and production.
- If an action is expected to occur by July 14th try to put as fine a point on the date as possible in this update. (Also, remember that a one-pager needs to be developed by the team if the action date is expected in two weeks or less.)
- Include a note if a matter is part of a national enforcement initiative.
- If you have any CD's going through public comment, indicate whether there are: no comments/no new outside interest, no significant adverse comments/no new outside interest, or public comments/interest under review.

Finally, if you update the document in Word, rename the document *only* by substituting *your first or last name* for the word *master* in the title.

Thanks as always for staying on top of this.

Chuck

Charles L. Figur

Senior Enforcement Attorney for Hazardous Waste
Legal Enforcement Program (ENF-L)
U. S. Environmental Protection Agency Region 8
1595 Wynkoop Street, Denver, CO 80202-1129
